

# MTP Ultra™

*Hydrosynthetic® Grease*

## Because crops won't wait on spare parts.

Keeping machinery running reliably is critical to your farming and agriculture operations. What can you do to better protect your equipment? MTP Ultra protects your operation's productivity by maintaining a protective lubricant coating on machine components and keeping dirt and moisture out of contact zones. Formulated with adhesive/cohesive Resilium® polymers, MTP Ultra stays in place, so parts stay protected and extended greasing intervals are maintained. Excellent for pins and bushings, pivot points, chassis points, fifth wheels and wheel bearings, MTP Ultra is designed specifically for your farm equipment requiring a tacky EP grease.

### BENEFITS

- **Outstanding anti-wear and extreme pressure protection to maximize equipment life**
- **Tacky formulation resists sling-off and pound out under heavy loads**
- **Protects against rust and corrosion**
- **Resists oxidation to ensure long grease life**
- **Exceptional water washout resistance**
- **Good fluidity and pumpability**

4-BALL WELD LOAD (KGF)

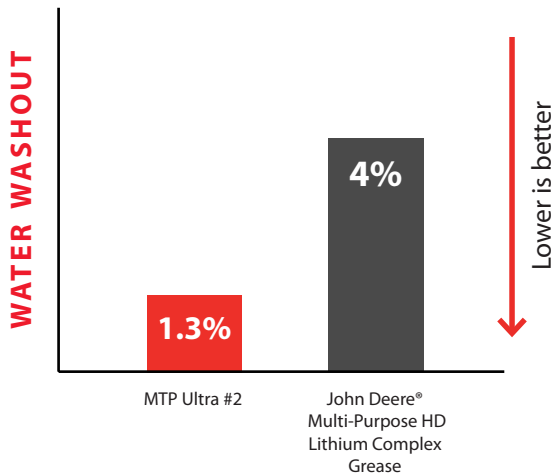

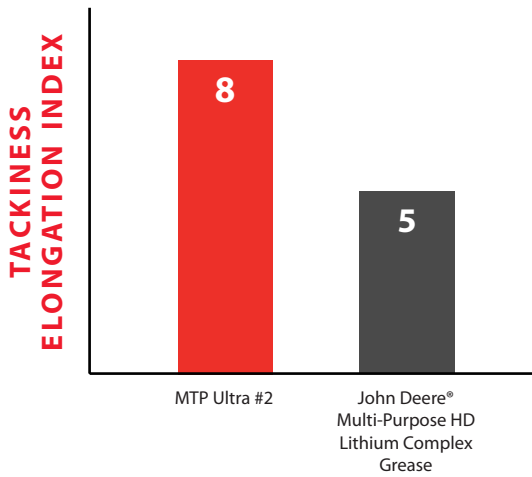

MTP Ultra #2

Grease\*

\*Hydrotex® lab test result 2016

*MTP Ultra exhibits exceptional tackiness and adhesion to keep water and contamination out of your bearings*

## For optimal results, use with:

### POWER KLEEN™

Give new life to your diesel fuel system! Power Kleen keeps the entire fuel system clean: powerful nitrogen cleaning molecules dissolve deposits of carbon, gum and varnish in fuel injectors, lines and tanks, and prevents their reformation.

### ESSENTIALUBE®

Keep your engine in pristine condition by flushing with Essentialube, our powerful blending agent which reduces the harmful effects of engine acids and increases engine life. Contains ashless additives and pure hydrocarbon ingredients, contains no metallic additives and will not void warranties.

### HY-TORQUE®

Hy-Torque Universal Power Transmission Fluid features expertly balanced friction properties to prevent chatter and reduce wear and tear on your equipment. Excellent wear protection, thermal and oxidative stability, and protection against corrosion make Hy-Torque the perfect lubricant for your hydrostatic transmission, differential, final drive, wet brake, wet clutch and hydraulic equipment.

**Ask your Hydrotex representative about how Lubrication Management can add value to your business.**

- Improve Reliability
- Increase Uptime
- Optimize Efficiency

## About Hydrotex®

Hydrotex® is a manufacturer and distributor of high performance lubricant and fuel improver solutions. As an employee owned company, we help our customers develop sustainable solutions designed to help improve system reliability, save energy, limit pollution, extend fixed asset life, reduce maintenance costs and improve fuel efficiency. Our products and services leverage over 80 years of innovation resulting in superior lubrication solutions.
